

F2 Manager

Release note

Version 1.80.0

F2 Manager version 1.80.0 release note

Dear F2 user,

Welcome to release note 1.80.0 for cBrain F2 Manager.

In this version we have made improvements and fixed certain bugs in F2 Manager.

A summary of new and/or updated functionality and bug fixes is presented below.

- A new configuration is available, enabling ADFS login through Azure. Note that only users created in both AD and F2 are able to log in when this configuration is enabled. The configuration is performed in cooperation with cBrain.
- cBrain offers a new F2 Manager module that is compatible with Microsoft Intune. F2 Manager Intune contains the same functions as F2 Manager, but is subject to the security model set up in Microsoft Intune.
- Text from chats can now be copied by long pressing the chat message and selecting "Copy".
- Management of PDF files in F2 Manager is improved.
- General language improvements to the German version of F2 Manager.
