

F2 Touch

Release note

Version 1.80.0

F2 Touch version 1.80.0 release note

Dear F2 user,

Welcome to release note 1.80.0 for cBrain F2 Touch.

In this version we have made improvements and fixed certain bugs in F2 Touch.

A summary of new and/or updated functionality and bug fixes is presented below.

- F2's signature colour is now a darker blue. This improves accessibility by providing increased contrast to white text. The F2 icon has been updated to match the new dark blue colour of F2.
- Fixed a bug on iOS which prevented a document from being attached to a record using the "Copy to F2 Touch" function if a document preview was open in F2 Touch.
