cBRAIN

F2 Touch

Release note

Version 1.90.2

F2 Touch version 1.90.2 release note

Dear F2 user,

Welcome to release note 1.90.2 for cBrain F2 Touch.

In this version we have corrected certain errors in F2 Touch. A summary of the bug fixes is presented below.

- Fixed a bug that caused a crash when adding a video recording to F2 Touch on iOS.

- Fixed a bug that could prevent push notification deregistration on iOS. This could cause push notifications from an earlier accessed F2 system to appear.

- Fixed a bug that made certain buttons and text on the top ribbon invisible on iOS 15.
